Finding Why ?

1) Why do I want to learn Frontend Development?

Write all the reasons why you want to learn. Do you want to secure a job? or get financially independent? or it's fun learning a new skill? Write down whatever you feel!

2) What will my life be like after 6 months of learning frontend development?

Would you live a more beautiful life? Would you feel a sense of achievement? Would you have a job? Would you be confident enough to crack a good company?

3) How will learning frontend development change the lives of my family and well-wishers?

What will you do for your family or friends? Would they be happier as you are focused and have learnt something? Would your determination impact their lives?

4) How will I feel if I don't commit to my words?

Would you feel bad? Would you feel like you lost something that you could've easily achieved with proper consistency? Would you ever try to do it all again?

5) If I completed the frontend development course, work hard, and practice it, how will my life look like after that?

Try to imagine your future life! In the matter of 6 months, you've acquired a skill that is in-demand right now. Would you make your parents proud? Would you apply for jobs and get selected? Would you be able to marry the love of your life?
